Connecting travel at the end of your rail journey

Depending on the rail route and direction in which you travel, arrival in your destination ranges from afternoon to early evening. Rail travel in North America is occasionally subject to unforeseen delays. While Rocky Mountaineer is treated as a priority on the train tracks it uses, occasional delays do occur. For that reason, if your package does not already include accommodation at the end of your journey please do not arrange connecting transportation, including flights, on this day.
